Reference Guide: Medicaid Contacts for Beneficiaries

NC DEPARTMENT OF
**HEALTH AND
HUMAN SERVICES**
Division of Health Benefits

With Medicaid Transformation comes the introduction of new points of contact for beneficiaries, such as the Enrollment Broker and health plans. A long-term goal of NC Medicaid is to provide a single point of contact – one number – for beneficiaries to call for assistance. For now, please try to direct beneficiaries to the appropriate contact using the information provided in this guide. The attached tables provide the various points of contact, key responsibilities, and phone numbers and/or websites beneficiaries can use. **When in doubt, you may always refer the beneficiary to the Enrollment Broker for assistance: 1-833-870-5500. This guide is intended for internal use only and not meant to be used as a handout for beneficiaries.**

Prior to referring beneficiaries, please consider the following:

- Changes in household situation, changes of address, pregnancies/births, and general eligibility questions should be referred to the beneficiary's local Department of Social Services (DSS). A directory of all 100 local DSS offices is provided [here](#).
- If possible, find out if the person is already a member of a health plan. Points of contact for health plan members (people in NC Medicaid Managed Care) may differ from those for beneficiaries in NC Medicaid Direct. For DSS staff, if the beneficiary does not know if he or she is in a health plan, check the Prepaid Health Plan/Managed Care evidence on the Medicaid Case in NC FAST to find out. You can also find the Managed Care Status on the Benefit History tab of the Person page.

When possible, please transfer beneficiaries to the appropriate point of contact and stay on the line with them until a live agent answers. This is one way to ensure they get connected to the right person regardless of where they start.
